## DG-Project Service GmbH

We love impacts

For more than 20 years, we have been creating spaces in the hotel, shop and marine sectors.

In our 3 business units Artstudio, Product and Construction we combine innovative touch points throughout Europe. International construction sites become our impact spaces.

## See. Feel. Experience.

Discover the place where creative ideas come to life. The place that illustrates our expertise. The place where you can get in touch with our products.

Whether exclusive object wall coverings, various object foils, object fabrics or our digital printing. Stop by for a cup of coffee and go on a journey of discovery.

## Three key areas of success

Our company is based on three individual business units, which can be used as a **full service** but also as individual services.

With our three business units **ARTSTUDIO**, **PRODUCT** and **CONSTRUCTION** division, we cover creative design and conception, up to the production of artwork, as well as expert advice on our certified quality products.

In addition, we coordinate and plan the implementation on the international construction sites. We put together an individual package for your project & your requirements.

### Our Business Unit **ARTSTUDIO**

#### Our inhouse graphics department

- Composing
- Image editing
- Individual artwork
- Print data creation

### Our Business Unit **CONSTRUCTION**

#### Our services

- Construction Management
- Drywall construction
- Painting
- Wallpapering
- Tiling

Our business unit  
**ARTSTUDIO**

**Tailor-made motifs**  
– suitable for every  
concept

The **ARTSTUDIO** is an in-house graphics department which is responsible for the individual motif development for your project.

We accompany your project from the first idea to the elaboration of a concept, layout creation, colour matching and print approval up to the professional creation of artwork. We adapt to your wishes and develop designs based on your individual ideas.

Our business unit  
**PRODUCT**

**Quality meets aesthetics** – Discover our modern product variety for the object area.

The **PRODUCT** business unit works under strict quality requirements to define the best object wall covering for your project.

We work closely with a number of renowned international manufacturers and can therefore guarantee to find the right product for your project in the contract sector. Our focus is to meet your requirements in regard to look and feel as well as certification.

Our quality requirements:

**Lightfastness**

**IMO**

**Washability**

**Fire protection**

Our business unit  
**CONSTRUCTION**

**Planning reliability for your project** – we support you directly on site

From measurement to construction time monitoring - we take over on site and optimise our touchpoints.

The **CONSTRUCTION** team always comes in when it comes to processes associated with your construction site in the object area.

We ensure timely and professional planning, control and execution directly on site. Our team is distinguished by many years of experience on large international construction sites and knows how to work under time pressure.

### **1 PLANNING AND CONTROL**

From measurement to construction schedule monitoring - we take over all fields of activity & control the work on site in consultation with our business partners.

### **3 PAINTING & VARNISHING WORK**

We offer large-scale painting jobs within the shortest possible construction periods. When it comes to painting doors, frames, windows or furniture, our expert team is there to help you.

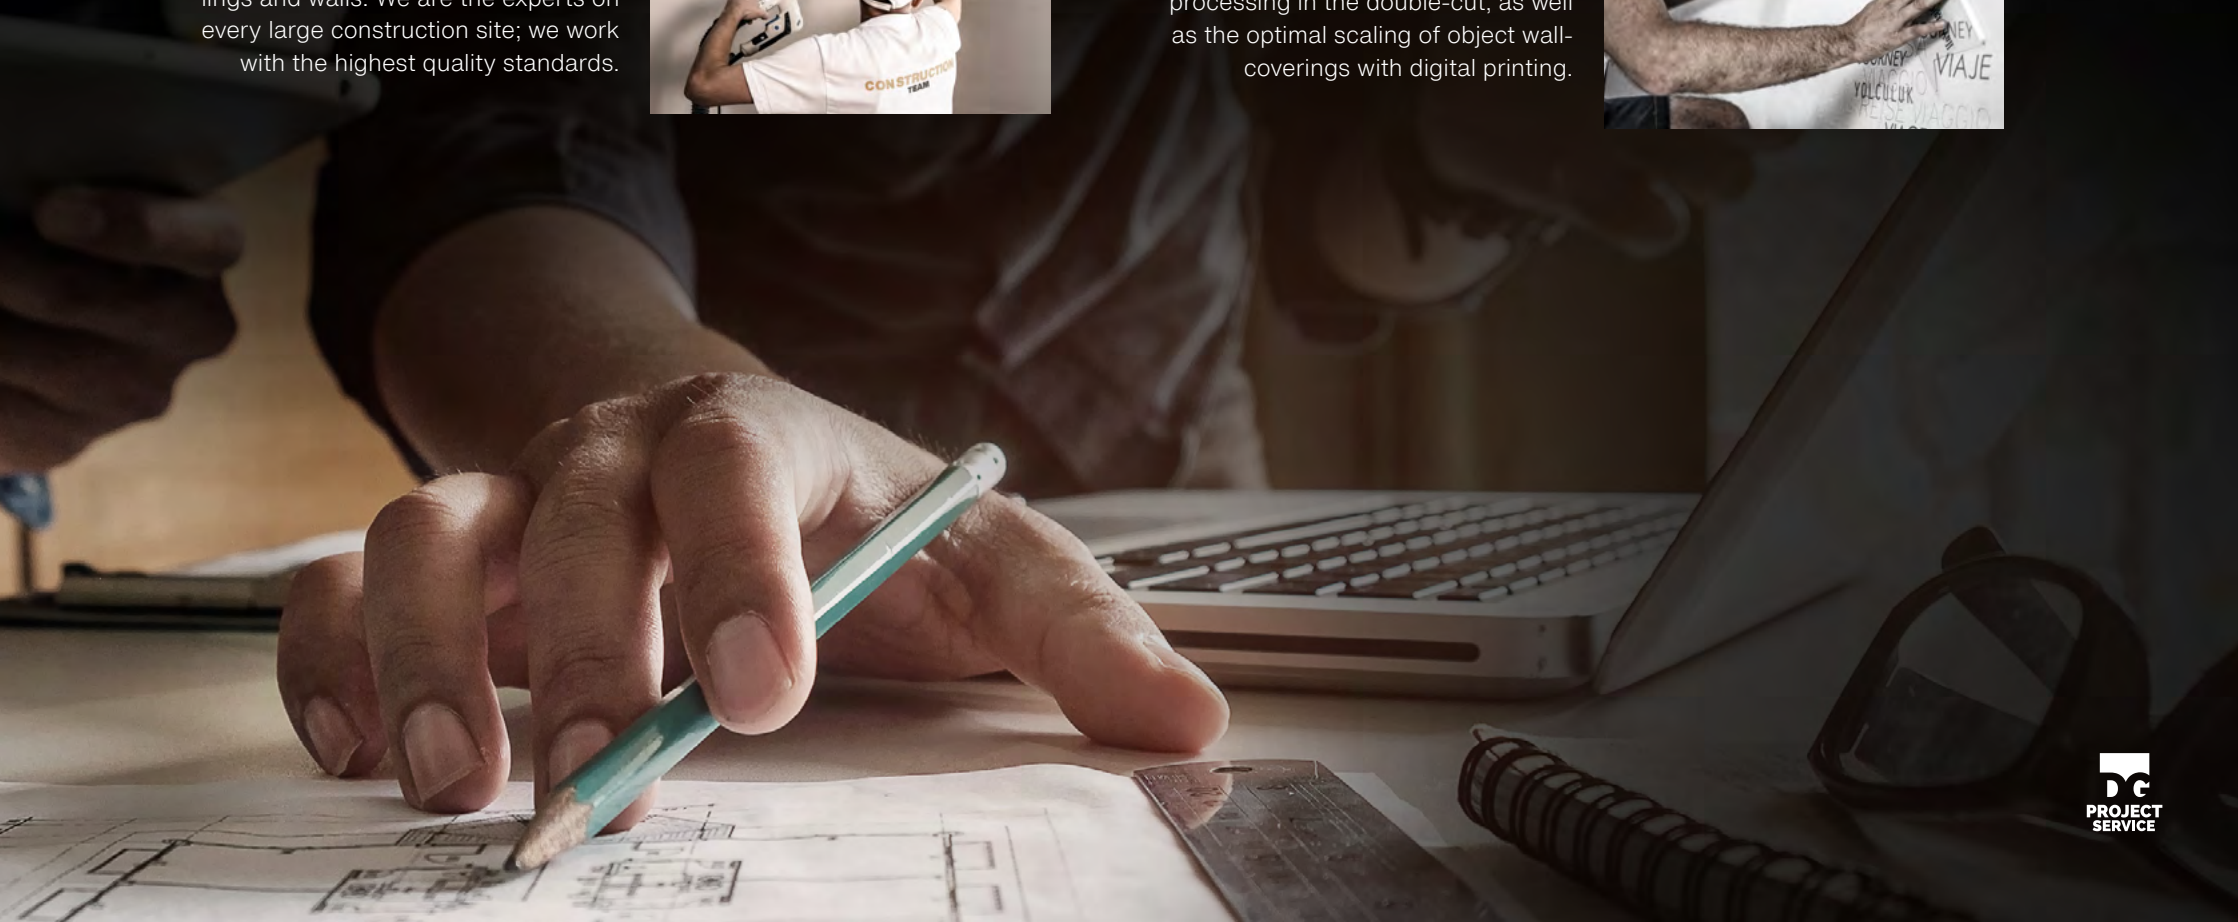

### **2 DRYWALL**

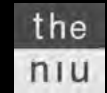

Our focus is on the installation of wall panels, facing shells or drywall ceilings and walls. We are the experts on every large construction site; we work with the highest quality standards.

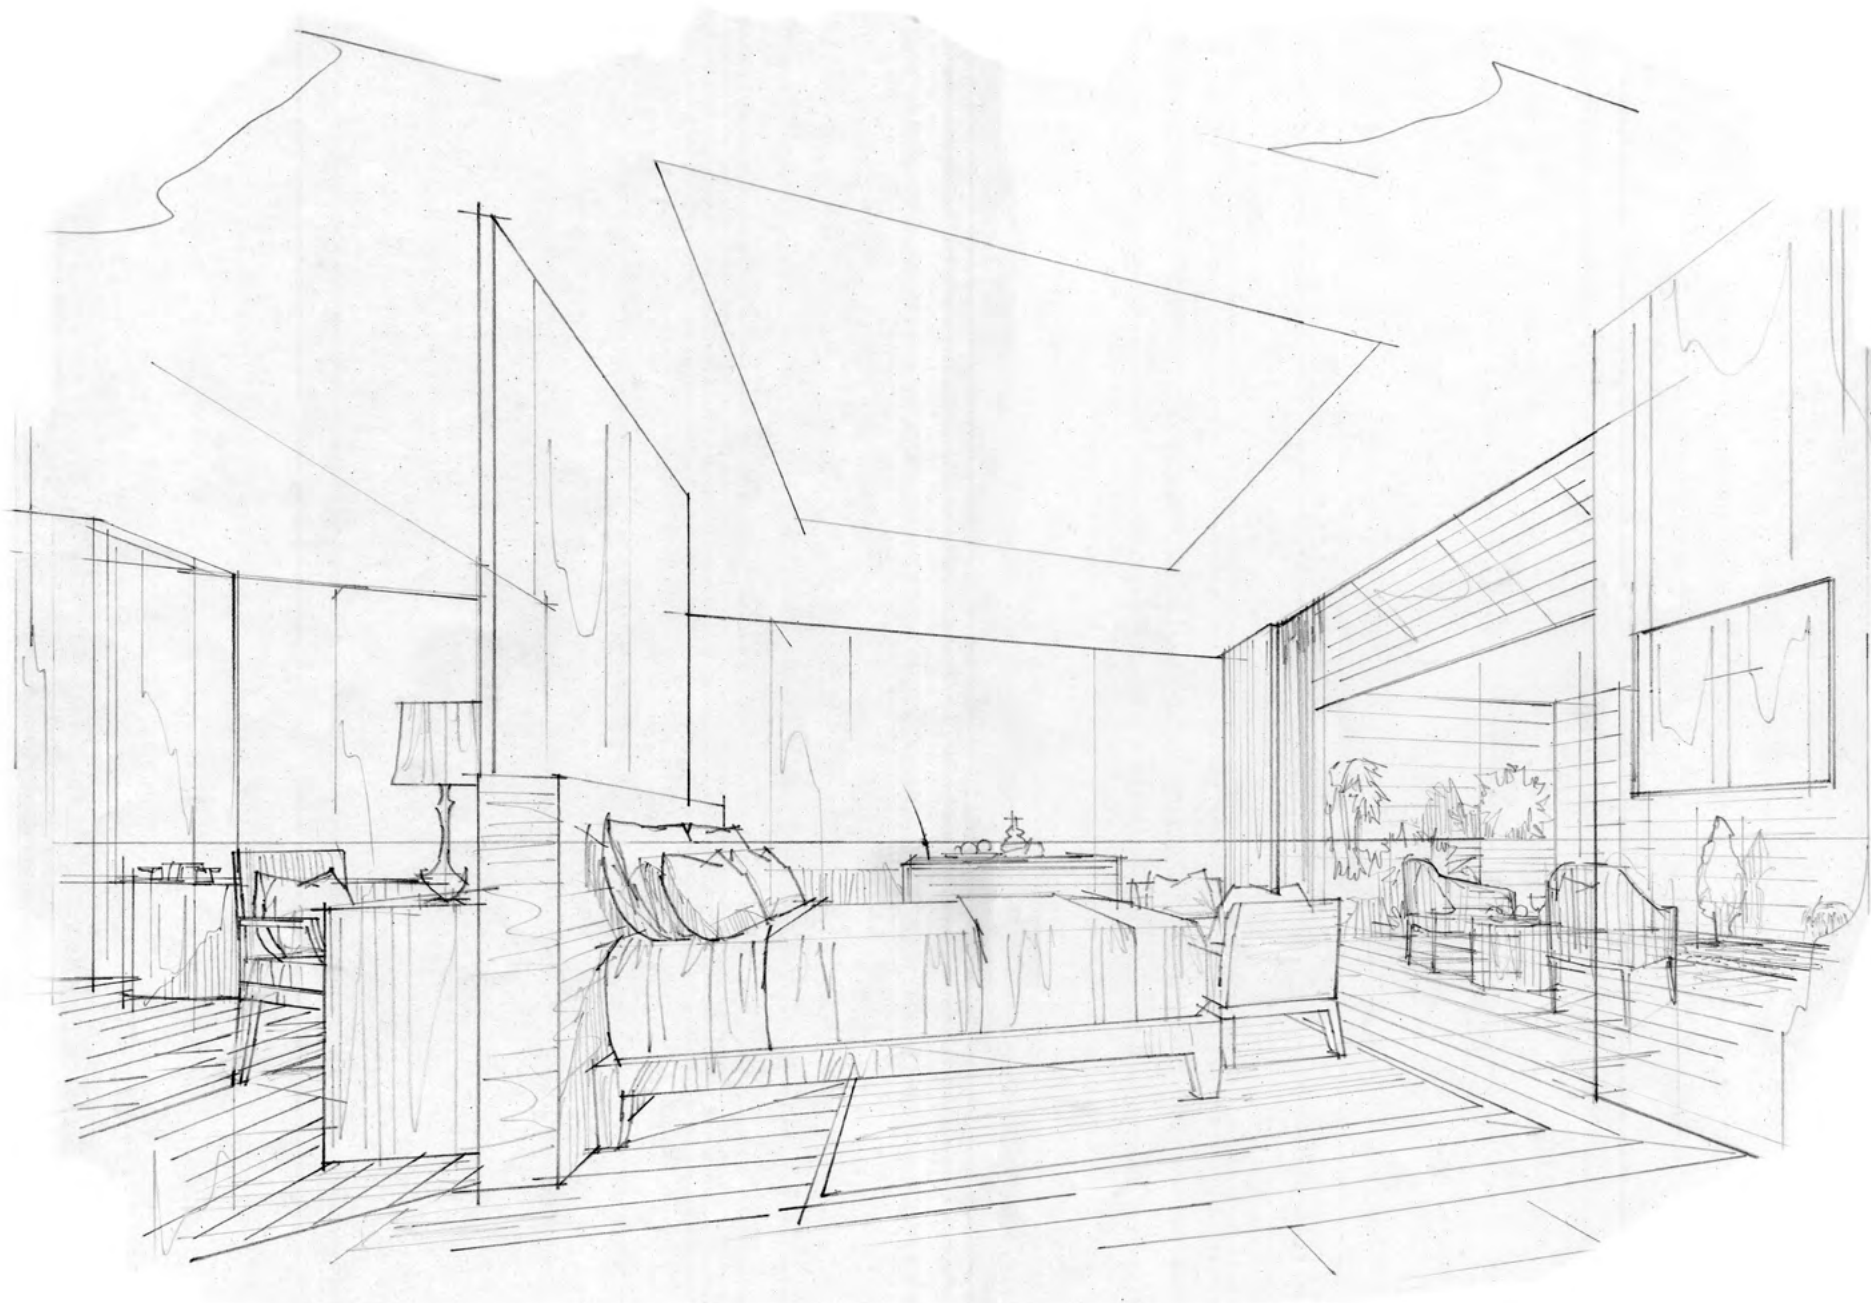

### **4 WALLPAPERING**

The focus is on professional wallpapering of object wallcoverings and processing in the double-cut, as well as the optimal scaling of object wallcoverings with digital printing.
